

WCTA Managed WiFi

WCTA Managed WiFi gives you an instant snapshot of your home or small business network. Through the app you can view all the connected devices on your network, set up parental controls or a guest network, run speed tests, change your SSID and password, and more! **WCTA Managed WiFi** puts you in charge!

Visit our website at: www.wctatel.net/WCTA-Managed-WiFi to get a download link, quick start guide, and more!

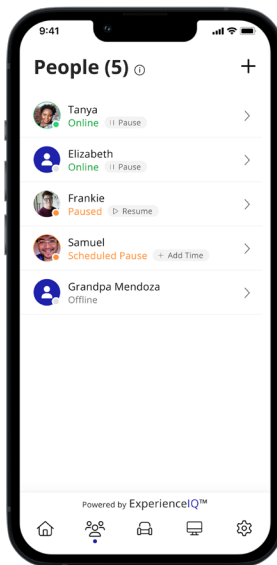

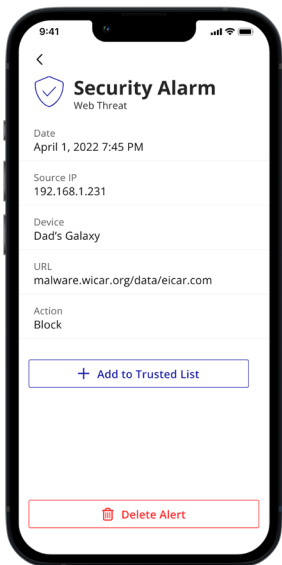

Enhance your service

Security Plus provides protection against viruses, malware, and malicious websites, keeping your network and devices safe from cyberattacks.

It also provides you with the tools needed to enforce the Internet rules you've established for your home. Set up profiles for your children or devices, filter content, websites, and applications, and set appropriate time limits.

Stay safe and add the **Security Plus** feature to your **WCTA Managed WiFi** app for only \$6.95 per month!

Welcome to

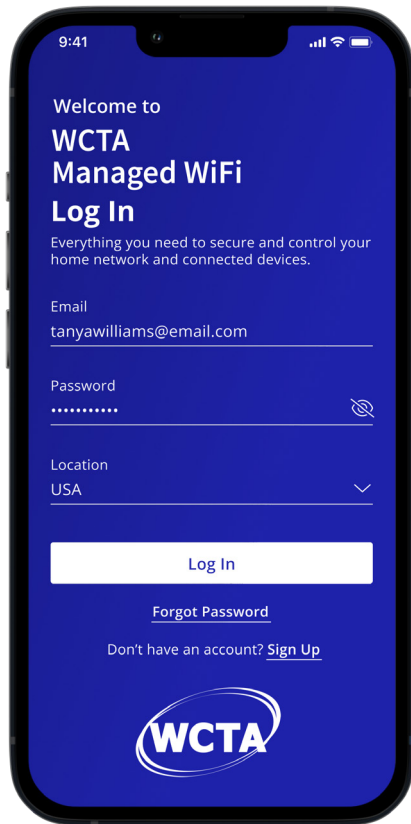

WCTA Managed WiFi

Everything you want in WiFi.

What is WCTA Managed WiFi?

It's WiFi Unleashed! Safe, fast, reliable Internet service that covers your whole home. Managed all from the palm of your hand with the **WCTA Managed WiFi** app and powered by the WCTA GigaSpire.

Security Plus Features

What is Security Plus?

A service that protects children or grandchildren from harmful or inappropriate content, limits screen time on devices or applications, and displays online usage through “Enhanced Parental Control”. Gigaspire Blast System is required.

How is this going to benefit my family?

- Block inappropriate categories like pornography or violence.
- Block applications that you deem inappropriate (e.g. gaming applications like Call of Duty or social applications like Snapchat).
- Set time limits for specific applications, like TikTok or Instagram, to cap screen time.
- Set “Safe Search” and “YouTube Restriction” to block harmful or inappropriate content when searching on Google, Bing, or YouTube. The “YouTube Restriction” feature also blocks all comments on videos which often include inappropriate language.
- View usage for all devices to better understand HOW the internet is being used in your home.
- Prioritize people or specific devices to ensure the best possible experience for your most important needs. Set schedules so that important tasks get priority during the day, and streaming applications get priority in the evening, for example.

Only \$6.95 per month!

Security Plus

This powerful feature lets you manage screen time, content, access to websites, and applications – all from the app! It also lets you prioritize which devices should get preferred connection so if you work from home and want to make sure you always have enough bandwidth, this feature is for you.

As hackers become increasingly sophisticated, your network requires an equally innovative solution. Security Plus keeps a lock on your network and alerts you when unwanted visitors, hackers, viruses, or malware try to visit. If it's connected, it's protected!
